<b>Egg Washer</b>		<b>Address:</b>	<b>Procedure #:</b>
		<b>City, State, Zip Code:</b>	
		<b>Production Area</b>	
		<b>Egg Washer Cleaning Procedures</b>	
		<ol style="list-style-type: none"> <li>1. On a daily basis an after production run, drain washer tanks and rinse the washer internal and external surfaces with potable water to free all loose soil.</li> <li>2. Check all spray nozzles to be sure they are not plugged. Clean as necessary.</li> <li>3. Foam or Spray the internal and external surfaces of the egg washer with a solution of <b>Process Cleaner</b> at a rate of 2 – 4 oz. per gallon of water.</li> <li>4. Allow the foam to stand on the washer surfaces for approximately five minutes (DO NOT ALLOW THE FOAM TO DRY).</li> <li>5. While the foam is on the surfaces, use appropriate brushes to brush hard to clean areas.</li> <li>6. Rinse the entire washer thoroughly with potable water and allow it to air dry.</li> <li>7. Inspect the washers for cleanliness and reclean any soiled areas as discussed above.</li> </ol>
